Since our founding in 1976, Habitat for Humanity has helped more than 22 million people build or improve the place they call home.

With your support, in fiscal year 2018 alone, we helped more than **8.7 million people build or improve the place they call home**, and an additional **2.2 million** gained the potential to improve their living conditions through training and advocacy.

We've accomplished all of this with the trowel and the power saw, to be sure, but also by working alongside families to help them access the tools they need for a better tomorrow. Sweat equity, affordability, empowerment.

To put those instruments of such fundamental change in the hands of those who need them most, we also faithfully bring a few of our favorite tried-and-true tools to the workbench.

Volunteerism, service, advocacy, awareness.

These engines — fueled by your generous support — propel the inclusion, innovation and inspiration that are hallmarks of our work around the world.

More than 1.4 million volunteers helped build, advocate and raise awareness about the global need for shelter in the past fiscal year.

Thank you for everything that you do, every tool that you wield, as we work together to make this a world where everyone has a decent place to live.

Our local *Give Where You Live* campaign, going on right now, is just one way that you can help build for and with God's People in Need right here in Kearney.

10% of every dollar donated is sent as a tithe to help build and rehab homes in third world countries. *This is the Habitat way.*

WELCOME to Kearney Area Habitat for Humanity's HOME DEDICATION celebration. Since 1992, KAHfH has been helping partner families build their own simple, decent houses. We are proud to say that these families continue to help build houses in Kearney along with houses in overseas countries through their mortgage payments and their volunteer efforts.
